Professional Summary:

A passionate and dedicated educator with over 7 years of experience in teaching and home tutoring across various age groups. I have inspired students to achieve their full potential by offering personalized and interactive lessons in multiple subjects. I am committed to creating a positive and supportive learning environment that encourages both academic excellence and personal growth. Skilled at identifying individual learning needs, setting achievable goals, and providing constructive feedback to foster confidence and success in my students.

SUMMARY OF SKILLS:

Subject Expertise:

Proficient in tutoring a wide range of subjects including Math, Science, English, History, etc, with a focus on students in high school or students preparing to write exams in the tertiary institution or college.

Effective Communication:

Strong ability to communicate complex ideas clearly and engagingly, fostering student understanding and engagement; and the ability to recognize what the student needs by finding a way to communicate with them by being their friend and mentor.

Time Management:

Efficient in managing time during lessons and with student progress tracking, ensuring that academic goals are achieved within set timeframes.

Adaptability & Patience:

Capable of adjusting teaching methods based on student learning styles, while maintaining a patient, encouraging, and positive attitude.

Technology Integration:

- Familiar with educational tools and resources (e.g; online platforms, virtual whiteboards, interactive quizzes) to enhance online tutoring sessions.

WORK HISTORY:

- Assists high school students in church coaching to prepare for university admissions; such as jamb, Waec, and A-level, while training them in mathematics and English language.
- Tutored an average of 5 different students a week for the academic year.
- Tutored an average of 2 high school students from junior secondary school and for college admissions exams. The duration of tutoring varied from a year to two years, depending on the needs and requirements of each student and family.

HOME TUTOR(2018)

- Assisted a student in preparing for the Common Entrance exam.
- Focused on developing the student's calculation skills, writing skills, and grooming in quantitative and verbal reasoning.
- Provided consistent support in both theory and practical aspects, helping the student build a solid foundation in core subjects.

JAMB TUTOR(2019)

- Tutored a student preparing for the JAMB (Joint Admissions and Matriculation Board) exams.
- Worked with the students from high school Year 2 to Senior Year, reinforcing key subjects to ensure a strong academic foundation
- The student successfully passed the JAMB exams and gained admission to Redeemer's University, a remarkable achievement that reinforced my commitment to the success of my students.

A-LEVEL TUTOR (2019-present)

- Worked with an A-level student to prepare for university education, focusing on advanced subjects. The student is currently enrolled at Obafemi Awolowo University, demonstrating the success of the tutoring approach and its effectiveness in ensuring university admissions.

WAEC TUTOR (Ongoing)

- Currently tutoring students preparing for the West African Examinations Council (WAEC) exams, with a particular focus on Mathematics, English, and Science.
- Aimed to achieve distinction-level results, with personalized lesson plans and study techniques designed to maximize academic performance
- Constantly adapting teaching methods based on individual student needs to ensure they stay on track for top-tier results.

GROUP TUTOR IN PUBLIC & FORMAL SETTING (2020-present)

- Led group tutorials in a public and formal setting, helping students prepare for both internal and external examinations.
- Aimed to foster collaborative learning and build essential academic skills such as problem-solving, critical thinking, and effective communication.
- Focused on encouraging peer interaction, providing individualized support within the group, and offering a structured approach to learning complex subjects.
- Achieved notable success with the group, as students exhibited improved academic performance and increased confidence in their abilities.

PROFESSIONAL SKILLS:

Basic Tutoring

- Partnered with students and families to develop a targeted tutoring program based on a class syllabus.
- Provided step-by-step support as students learned mathematical formulas or finished English and social study assignments.

- Reviewed essays and written assignments. Provided editorial feedback to help students
- tighten their conclusion and projects.
- Help student creatively work through their school project, by helping them build
- life model of the respiratory system in a science project.

Advanced Placement

- Assisted students in STEAM-related Advanced Placement courses. Specialized in calculus, statistics, chemistry, physics, biology and environmental science
- Provided additional editorial feedback to help students develop strong writing and reading comprehension skills.
- Help student to do well and participate in school exams.

0-5 years of experience:

- Create lesson plans for students.
- Helped students improve in English and math.
- Created invoices.
- Contacted parents to arrange the tutoring session and to inform them of the students progress.

6-till date experience:

- Worked with students, individually and in groups, as well as in varying grades, in multiple academic areas
- Focused primarily on English grammar and writing, mathematics and sciences.
- Aligned instruction with current curriculum used by Cambridge or the school itself.
- Researched and developed many resources while tutoring, including worksheets, lesson plans, and both formative and summative assessments to gauge students' learning.
- Integrated technology in instruction, through using resources such as Khan Academy and Google Drive

Language: English language only.

Education: University of Lagos (student; year 3)

Courses of studying in;

Teaching of mathematics in junior and senior secondary school:

Junior Secondary School (JSS): Involves teaching foundational concepts in mathematics, such as basic arithmetic, algebra, geometry, and introduction to statistics. The focus is on building strong mathematical skills and problem-solving techniques.

Senior Secondary School (SSS): More advanced topics are covered, including algebra, calculus, probability, and statistics, preparing students for further education or exams like WAEC and JAMB. Emphasis is placed on mathematical reasoning and applying concepts to real-life situations.

Basic principle of curriculum development and instruction:

The process of designing, implementing, and evaluating an educational curriculum. It involves selecting what to teach, how to teach it, and how to assess student learning. The curriculum should be relevant, well-organized, and adaptable to meet the needs of diverse learners.

Instruction: The methods and strategies teachers use to facilitate learning. Effective instruction includes clear learning objectives, active student engagement, assessment of student understanding, and the ability to adapt teaching techniques based on the needs of students.

Measurements and evaluation:

Refers to the process of quantifying student performance, skills, and knowledge through assessments, tests, and other tools.

Evaluation: Involves analyzing and interpreting the results of assessments to determine whether learning objectives have been met and how well students are performing. Evaluation helps inform teaching practices and curriculum adjustments.

Introduction to educational technology and ict:

The integration of technology in the teaching and learning process. This can include the use of computers, software, online resources, and multimedia tools to enhance learning experiences.

ICT (Information and Communication Technology): Refers to the use of digital tools such as computers, internet resources, and communication networks to support learning. In education, ICT facilitates interactive learning and access to vast amounts of information.
