COURSE CONTENT

The main responsibility of a driver is safety; meanwhile, every passenger or vehicle occupant relies on the driver to get to the destinations safely. Driving is all about awareness, responsibility and defensiveness, therefore, being a responsible driver, the focus should always be on the road to avoid various reasons of accidents through awareness and defensiveness.

In due course, a driver is required to consistently be conscious of his environment while ensuring that under no circumstance a driver should put his passenger in a possible dangerous situation.
